Course Overview

This 3-day, hands-on course teaches participants to automate real business processes by combining Microsoft Power Automate flows with AI agents built in Microsoft Copilot Studio. Every topic follows a concept → demonstration → hands-on lab pattern; participants finish with working automations and a capstone project of their own.

Duration	3 Days (9:00am – 5:00pm), 8 hours per day incl. 1-hour lunch
Delivery	Instructor-led, hands-on (physical / virtual)
Audience	Business and operations staff who want to automate repetitive work; no coding required
Prerequisites	Basic Microsoft 365 familiarity (Outlook, Excel); a Power Platform environment (see Lab 0)
Labs	17 step-by-step labs across 3 days, plus 5 concept modules

Learning Outcomes

By the end of the course, participants will be able to:

- Explain business workflow automation and the Trigger → Actions → Output model.
- Build Power Automate flows that send emails, log data to Excel, run approvals, and use scheduled and form triggers.
- Create business agents in Copilot Studio, ground them with knowledge (RAG), and give them tools.
- Connect agents to Power Automate flows and pass structured data between them.
- Orchestrate complete end-to-end workflows for sales, finance, procurement, and order processing.
- Design, build, and present an original end-to-end automation in a capstone project.

Daily Schedule

The Slides column maps each session to the matching slides in the facilitator deck (facilitator-slides.pptx, 94 slides) so trainers can pace delivery against the deck.

Day 1 — Foundations & Power Automate

Workflow concepts + your first five flows.

Time	Topic / Activity	Duration	Slides
9:00 – 9:30	Welcome, introductions, environment & accounts check (Lab 0)	30 min	1–5
9:30 – 10:15	Module 1: Introduction to Workflow	45 min	6–17

	Automation — triggers, actions, outputs, steps		
10:15 – 10:45	Module 2: Introduction to Power Automate — flow types, common triggers, connectors	30 min	18–30
10:45 – 11:00	Tea break	15 min	—
11:00 – 12:00	Lab 1: Automated Email Workflow (manual trigger → Send an email)	60 min	31–32
12:00 – 12:30	Lab 2: Excel Data Logging Workflow — build the table & flow	30 min	33
12:30 – 1:30	Lunch	60 min	—
1:30 – 2:15	Lab 2 (cont.): map columns, fx date expression, test & verify rows	45 min	33
2:15 – 3:15	Lab 3: Simple Approval Workflow — approvals & conditions	60 min	34
3:15 – 3:30	Tea break	15 min	—
3:30 – 4:15	Lab 4: Scheduled Trigger Workflow — Recurrence & reminders	45 min	35
4:15 – 5:00	Lab 5: Form Submission Workflow + Day 1 recap & Q&A	45 min	36–37

Day 2 — Building Business Agents with Copilot Studio

Agents, knowledge/RAG, tools, and agent + flow.

Time	Topic / Activity	Duration	Slides
9:00 – 9:15	Day 1 recap & Q&A	15 min	37–39
9:15 – 10:00	Module 3: Building Business Agents with Copilot Studio — prompt design for structured output	45 min	40–49
10:00 – 10:45	Lab 6: Create Your First Agent — instructions, knowledge, Test pane	45 min	55–56
10:45 – 11:00	Tea break	15 min	—
11:00 – 11:45	Lab 7: Add Knowledge to Your Agent (Grounding / RAG)	45 min	57

11:45 – 12:30	Lab 8: Add Tools and Actions — connectors & flows as tools	45 min	58
12:30 – 1:30	Lunch	60 min	—
1:30 – 2:30	Lab 9: Sales Enquiry Assistant — capture structured data	60 min	59
2:30 – 3:15	Lab 10: Procurement Request Workflow — agent calls a flow	45 min	50–54, 60
3:15 – 3:30	Tea break	15 min	—
3:30 – 4:15	Lab 10 (cont.): log + notify, wire inputs, test end-to-end	45 min	60
4:15 – 5:00	Lab 11: Automated Response Generation (AI prompts) + recap	45 min	61–63

Day 3 — End-to-End Workflow Automation & Workshop

Combine agents + flows, then build your own.

Time	Topic / Activity	Duration	Slides
9:00 – 9:15	Day 2 recap & Q&A	15 min	63–64
9:15 – 9:45	Module 4: End-to-End Orchestration Concepts	30 min	65–71
9:45 – 10:45	Lab 12: Email Enquiry → Excel Logging → Notification	60 min	72
10:45 – 11:00	Tea break	15 min	—
11:00 – 12:00	Lab 13: Invoice Upload → Approval Workflow (file trigger)	60 min	73
12:00 – 12:30	Lab 14: Purchase Request → Manager Approval — build	30 min	74
12:30 – 1:30	Lunch	60 min	—
1:30 – 2:15	Lab 14 (cont.): threshold condition, notify, test all paths	45 min	74
2:15 – 3:00	Lab 15: Order Processing (Agent + Flow) — confirm, log, restock alert	45 min	75–76
3:00 – 3:15	Tea break	15 min	—
3:15 – 3:30	Module 5: Business Workflow Workshop briefing	15 min	77–83
3:30 – 4:45	Lab 16: Capstone Workshop — design, build & present your	75 min	84–85

	own workflow		
4:45 – 5:00	Course wrap-up, feedback & where to go next	15 min	86–94

Tools & Resources

Microsoft Power Automate	make.powerautomate.com — build and run flows
Microsoft Copilot Studio	copilotstudio.microsoft.com — build and publish agents
Power Platform admin center	admin.powerplatform.microsoft.com — create the Sandbox environment (Dataverse)
Microsoft 365	Outlook, Excel (OneDrive), Microsoft Forms
Learner Guide	Full step-by-step guide for every lab (provided)

Assessment

Assessment is continuous and practical. Each lab includes a Checkpoint that the facilitator verifies. The Day-3 capstone (Lab 16) is the summative task: each participant designs, builds, tests, and presents an original end-to-end workflow against the published quality bar (clear trigger, data logged, at least one condition, an approval or AI-generated response, notifications for every outcome, and tested happy path + branches).
